

Betweenness Centrality

Index for number of network paths that pass through node, weighted by combined activity node catchment and cumulative impediment

Percentage of MRT/LRT/Bus segments:

42.5%/1.4%/56.1%

Percentage of CBD segments: 21.5%

Nodal Average: 130.3

Global Betweenness Index: 1,262

Legend:
MRT (thick black line)
LRT (dashed line)
Bus (thin grey line)
